

In the **village Kompoti** of **Municipality of Medeona** it is located a **new & modern** farm which people can visit it and stay there. Also there's a **winery** that visitors can see and observe the production of wine from **organic grapes**. "**KAPOTIS ESTATE**" is a farm with **unique ideas of agricultural tourism & the life in nature**. It's an ideal place for **relaxation, activities** and for

walks away from the city's stress.

It has fields of vines & vegetables, winery, wine cellar and offers accommodation. It has three independent & stoned carved maisonettes which are inside the farm with natural vegetation all around.

The maisonettes are built with curved stone & wood with traditional architecture. They have

fully equipped kitchens with all the electrical devices, giving the ability to visitors to cook their meals with local organic products. Also there's an outside barbecue grill.

Each maisonette has a view to the mountain and the dam of Achira with the lake of 3200 acres.

The **nature is unique** & beautiful. From the point that the vines end starts the vegetation of

Akarnanika mountains, with reach variety of trees and with the unique **firwood (Abies cephalonica sp)**.

Day 1: Arrival & Installation

Once we have settled in the lodgings, we can take a walk in the estate to get to know its facilities but also throughout our stay we have the opportunity to visit the vineyard and the winery as well as to watch and participate in the winemaking process and of course to taste the

unique quality and taste wines that are produced in the Kapotis Estate.

Day 2: In the morning after breakfast we will start our day with a visit to the Ancient Town of Toribia or Tyrbeon in Koboti. The ancient city is located very close to the estate on the hill that rises 500 m NorthWest of the village of Koboti, which is named Kastro (653 m high). There are the ruins of an ancient fortified Acarnanian city, which many scholars identify with the ancient city of Toribia. Inside the city are visible the traces of densely built houses, which are built with the famous Cyclopean masonry, a characteristic that we find in the ancient city of Mycenae and consist of many rooms. There are also several circular cisterns, made of rectangular lithroids. The market of the city was probably in the center of the fortification. On a small plateau next to it, there is an interesting building, which was characterized by archaeologists as "armory".

Return to the accommodation for rest and food.

Then, after resting, located in a short distance is the unique fir forest consists on Cephalinia firs. A unique place where visitors can take walks and do hiking while enjoying the beauty of nature.

Day 3: The next morning find us ready for adventure, our goal is the Nissa River (Tryfos) and the area of the baths of Saint Barbaros. Within walking distance (18 km by car and only 7 km of hiking), in the village of Tryfos, there are the springs of Saint Barbaros. There, the natural swimming pools on the Nissa River are a hidden paradise with waterfalls, paths and crystal clear waters, and the possibility of swimming for those who seek the relaxation and tranquility of nature.

Day 4: Today we will head for relaxation, strolling, coffee & dining in the town of Amfilochia.

Amfilochia is a coastal town in the north of the prefecture of Aitolokarnania and more specifically at the innermost point of the bay of Amvrakikos, built amphitheatrically on two hills. The

geographical location of the city has helped to call it "the bride of Amvrakikos". It has a beautiful harbor, wonderful beaches and stunning traditional taverns with delicious fish-meze.
